

# This Kind Of Lovin'

The Whispers

Ooh, this kind of lovin'  
I only get from you  
This kind of lovin'  
I only get from you, from you

Nothing ever felt like this  
So much fire in your kiss, gettin' kinda serious  
Makes me wanna play it fair  
Can't no other compare, so far I can't get enough

You got to be one of a kind  
Girl, I can't get you out of my mind  
And I tell you, baby, I've been around  
But there's only one thing that I found

This kind of lovin'  
I only get from you, yeah  
This kind of lovin'  
I only get from you, from you

'Cause those things were meant to be  
Talkin' 'bout you and me, I don't want nobody else  
And I'll never go nowhere  
Baby, this I won't share, you got me all to yourself

'Cause there's always something new  
In the way you do the things you do  
And there's no other in this world, no  
That I would ever call my girl

This kind of lovin'  
I only get from you  
This kind of lovin'  
I only get from you, from you  
Only you, only you

I ain't goin' nowhere  
I ain't goin' nowhere

You are the meaning of the word 'Satisfaction'  
Whenever we're alone, it's such a good reaction  
Nobody ever made me feel this way  
So I'm stayin' here with you, my dear, each and every day

'Cause those things were meant to be  
Talkin' 'bout you and me, I don't want nobody else  
And I'll never go nowhere  
Baby, this love I won't share, you got me all to yourself

'Cause there's always something new  
In the way you do the things you do  
And there's no other in this world, no  
That I would ever call my girl

This kind of lovin'  
I only get from you, baby  
This kind of lovin'

I only get form you, from you

I ain't goin' nowhere
