

## Tell Me What You Want

### The White Tie Affair

The sun has come up and the time is here  
I stare into your room and see that you still not there  
I'm reflecting the paramedics, and it's all falling apart  
Your heart stands still, but time moves on  
Whoever thought that it could go wrong  
It's infectious and pathetic  
and we're all falling apart

Tell me what you want, tell me what you need  
I tried to help, but you won't let me  
be the one to change your mind  
is it so hard to see  
Tell me what you want, tell me what you need  
I tried to help, but you help let me  
be the one to change your mind  
it's hard to believe

The screams rang out through the night once he fell  
and the knife runs deep, like a needle casted spell  
I'm reflecting when I said it and you were falling apart  
you grabbed your keys and closed the door  
on the life that you didn't want to live anymore  
It's infectious yet poetic  
you have fallen apart

Don't fade away, I won't turn the page  
Don't fade away...

Tell me what you want, tell me what you need  
I'll do anything just to make you breathe

Tell me what you want, tell me what you need  
I tried to help, but you won't let me  
be the one to change your mind  
is it so hard to see  
Tell me what you want, tell me what you need  
I tried to help, but you help let me  
be the one to change your mind  
it's hard to believe

(Don't fade away)

Tell me, that you're watching over me  
Tell me, you're watching over me
