

You'll Find A Way

The Whitlams

No doubt you're crying three suburbs away
Life goes on me i'm walking around the block
You said we never should have bothered
But i looked into your heavy eyes & i said "No"
You'll find a way to be happy again my love
You'll find a way to be happy again my old love
You can't say they were bad times
Remember you laughing yourself off the bed?
Ain't sex funny something to be done
Occasionally with someone you don't hate
You'll find a way...
We had a fine time dancing with the fairies
But time has left me so reserved again my love
Time has left me so reserved again my old love
You'll find a way...
