

# It's Not Enough

The Who

It's not enough  
Whatever you give

A little bit more you always need  
A little more man and a little more seed

It's not enough, it's not enough  
Whatever I give, it's never enough

I gave you cash, I gave you love  
All that I heard was, 'It's not enough'  
I worked so hard to get so tough  
Whatever I give, it never feels like enough, not enough

It's not enough, it's not enough  
Whatever I give, it's never enough

And I'm on my knees, I keep taking your stuff  
You make sure that I know it'll never be enough  
You said you'd go as far as turn to my friend  
What's sworn me and you, said you'll face my end

You'll choose you over me because I have lent  
Every ounce of my dues, my energies spent  
You'll always want a little more bit  
I always need a little more in, it's not enough

It's not enough, it's not enough  
Whatever I give, it's never enough

However I praise, however I puff  
Though you may smile, it won't be enough  
But in the end when I start to bluff  
The lift's going down and I started too tough, it's not enough

It's not enough, it's not enough  
Whatever I give, it's never enough

I'll find myself someone else to feed me up  
I'll smile and I'll licked you were never quiet enough  
Like visions were growing hardly the priest  
I can love enough to make you complete

You appear in my dreams with some new cardiac  
You need me than the sea, but you need to confess, not enough

It's not enough, it's not enough  
It's not enough, it's not enough

Stare at the ceiling  
You ain't never played love

It's not enough, it's not enough  
It's not enough, it's not enough

No, it's ever enough  
It's never enough

It's not enough, it's not enough  
It's not enough, not enough  
It's not enough, it's not enough  
It's not enough, it's not enough

It's not enough, it's not enough  
Whatever I give, never be enough  
It's not enough, it's not enough  
Whatever I give, never be enough
