

## Medac

The Who

Henry Pond had no fun  
Had a face like a currant bun  
This adolescent little fella  
Was nicknamed by his friends "Old Yella"

The doctors gave him creams and lotions  
To try to sooth the boys emotions  
But all in vain; the acne stayed  
Henry's hopes began to fade

Then, when just about to crack  
He found another cream - Medac

When Henry in the mirror peered  
His pimples all had disappeared  
Henry laughed and yelled "I got 'em!  
Me face is like a baby's bottom"
