

# Trying To Get Through

The Who

Trying to get through, going to just sit and smile  
Trying to get to you, but it's once in awhile  
Trying to get through, get through, get through

How could they fear, turn a blind eye  
Pack up the sun, 'cause they see I'm tryin'  
To get through, get through, get through

Are you really mine, or are you my scene  
If I teach you now, do you think you could please  
I'm trying to get through, get through, keep on goin', yeah
