

Tick Tock (all Night Long)

The Wiggles

It's on the wall or on your wrist.
It tells everybody the time.
You wind it up. It just can't stop.
It ticks all day and night.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
It's got a face and hands and numbers 1 through 12.
It makes a groovy sand.
It takes 12 hours for the hands
To go around and round.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
It's called a clock or a watch.
They both tell us the time.
Some cuckoo, some may ring
And some may even chime.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
It's on the wall or on your wrist.
It tells everybody the time.
You wind it up. It just can't stop.
It ticks all day and night.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
And the clock ticks all night, all night long.
Tick, tick, tick, tock, tick.
