

Dangerlust

The Wildhearts

Whenever I'm on top there's someone trying to drag me down
They say I've got to tag along to all this shit that's going 'r
ound

Best times of my life, the times I spend alone (it hurts me)
I could never trust in you so how could you desert me
I'm cold, make me hot, give me glory or not
I'm sick of being

They said I could never be a-some big clown
If I try, but I will never back down
If I don't feel nothing 'bout the state I'm in
If I try, they might accept my sin
('cause I wanna) sit where nobody is
('cause I wanna) ever tried being yourself?
('cause I wanna) give me some time on my own
('cause I wanna) leave me alone, yeah, yeah, yeah

Honey turn the TV down
I get a light on this thing and pass it around
If it works for you, it'll work for us, so
Gimme a little dangerlust
Gimme a little dangerlust

Da-Da-Da-Day-Glo buffaloes blew me away
Straight into the hours 'tween the dusk and the day
Mile high, sweet as time, show me a sign
I'm smiling away 'cos I know that it's mine

Honey turn the TV down
I get a light on this thing and pass it around
If it works for you, it'll work for us, so
Gimme a little dangerlust
Gimme a little dangerlust
Gimme a little dangerlust
