

# I Wanna Go Where The People Go

The Wildhearts

Out of the misery to wash my soul  
Follow me round with a blue eight count  
I only came to rock 'n' roll  
Check in the mirror and I don't mind  
If it's a face that secures my place  
Then I'll leave it all behind

So I gave it the distance, avoiding the business  
And me? in time, let it shine, let it shine  
Well...

I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
Take me there, anywhere  
Just as long as there's an atmosphere  
We'll be round, round, round  
Come on down, we all went down

Taking the time out to look and learn  
Not a regret to carry round  
And no bridges left to burn  
Living a cliché, go round and around  
Suffer the present and the past  
Until something else is found

If pride is a memory, is nobody angry?  
And me? in time, let it shine, let it shine  
Well...

I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
Take me there, anywhere  
Just so long as there's an atmosphere  
We'll be round, round, round  
Come on down, we all went down

Grins are rare and black is back  
Only last week they were lumberjacks  
Maybe they're hiding the tension inside  
And they're waiting for guidance  
To get off their seat and react  
(Oh yeah, oh yeah, oh yeah, oh yeah)  
(Oh yeah, oh yeah, oh yeah, oh yeah)  
Or settle back  
(Oh yeah, oh yeah, oh yeah, oh yeah)

(Oh yeah, oh yeah, oh yeah, oh yeah)  
(Oh yeah, oh yeah, oh yeah, oh yeah)  
(Oh yeah, oh yeah, oh yeah, oh yeah)  
(Oh yeah, oh yeah, oh yeah, oh yeah)  
(Oh yeah, oh yeah)  
Well...

I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
I wanna go where the people go yeah  
(I wanna go where the people go yeah)  
Take me there, anywhere  
Just so long as there's an atmosphere  
We'll be round, round, round  
Come on down, we all went down  
We went down  
We went down  
We went down (we all went down)  
We went down (we all went down) Hey!
