

In Lilly's Garden

The Wildhearts

Honesty will set you free but individuality is wonderland
The greatest gift provided, kept inside in case no-
one understands
Add animal instinct here
When all is settled and done there's just empathy chains
The crowd was second to none but the memory remains

In lilly's garden (2x)

Some are small and some were smaller
Wise above the size but they're all in here (but they're all in
here)
The need of company, condition free and wanting me when I was n
ear

And down beneath the ground waters meet
In the confusion of friendship they don't let you down
To break the future in gently, they're always around

In lilly's garden (3x)
