

## In Lilly's Garden

The Wildhearts

Honesty will set you free but individuality is wonderland  
The greatest gift provided, kept inside in case no-  
one understands  
Add animal instinct here  
When all is settled and done there's just empathy chains  
The crowd was second to none but the memory remains

In lilly's garden (2x)

Some are small and some were smaller  
Wise above the size but they're all in here (but they're all in  
here)  
The need of company, condition free and wanting me when I was n  
ear

And down beneath the ground waters meet  
In the confusion of friendship they don't let you down  
To break the future in gently, they're always around
