

Mazel Tov Cocktail

The Wildhearts

There's a fever in the cabin
There's a devil in the garden
A shark fin in the brainwaves
Stopping anything starting

Grey skies fight and the sun dies shining
Then the telephone rings with a silver lining

Take me out, take me out tonight
Get me hooked in good and stick the wheels on tight
Take me out, take me out tonight
'Cause when the light has gone
Just a whole lot of shakes going on
Yeah

If I can wait a little longer
If I can keep on believing
Just a location and a number
Is all the intel I'll be needing

Where the lights are bright and the girls are smiling
Where it sounds so good it'll stop me thinking

Take me out, take me out tonight
Get me hooked in good and stick the wheels on tight
Take me out, take me out tonight
'Cause when the light has gone
Just a whole lot of shakes going on

Grey skies fight and the sun dies shining
Then the telephone rings with a silver lining
Where the lights are bright and the girls are smiling
Where it sounds so good it'll stop me thinking

Just a whole lot of shakes going on
Just a whole lot of shakes going on
Just a whole lot of shakes going on
Just a whole lot of shakes going on
