

She's All That

The Wildhearts

She's all that, she's all that
She's all that it takes to convict you
She's all that, she's all that
She's all that it takes to convince you

You might make most of them believe you
But not me; I, I got your number
I'm on you like a shadow. I follow your every lie
It ain't me that's catching your disease

Uh-uh, uh-uh, uh-uh
Your eyes are saying something
Your mouth is saying another thing
You think you're going to cut me down to size?
Uh-uh, uh-uh
'cos I'm in the middle of your little enterprise

She's all that, she's all that
She's all that it takes to convict you
She's all that, she's all that
She's all that it takes to convince you that
She's all that, she's all that
She's all that, she's all that

All eyes are buying into you and your disguise
And you can paralyse every guy you see
You're good, but there ain't no flies on me
You should know by now that there ain't no guarantees

Uh-uh, uh-uh, uh-uh
Using up your time, walking on a thin line
Thinking that you're gonna get across
Uh-uh, uh-uh
'cos I'm gonna party when they nail you to the cross

She's all that, she's all that
She's all that it takes to convict you
She's all that, she's all that
She's all that it takes to convince you that
She's all that, she's all that
She's all that, she's all that

And you're gonna get it when you don't see it coming
And you're gonna get it when you don't see it coming
And you're gonna get it when you don't see it coming
You're gonna get it baby

She's all that, she's all that
She's all that it takes to convict you
She's all that, she's all that
She's all that it takes to convince you that
She's all that, she's all that
She's all that it takes to convict you
She's all that, she's all that
She's all that it takes to convince you that
She's all that, she's all that
She's all that, she's all that

She's all that, she's all that
She's all that, she's all that
