The Wildhearts

Play, relax, enjoy  
'cos you're frying tonight again  
It's raw, unclean, uncut  
And it's all for the art of pain  
Just make-up and FX  
Man those movies they twist the brain  
My TV screen is dripping red  
With Gates of Hell and Evil Dead  
I cannot wait to see it up close  
So slice away and go for gross again

It's splattermania, it's extra censored thrills  
It's splattermania, it's zoom in on the kill  
It's splattermania, I know you think I'm ill  
But if you hold on tight and don't be shy  
We're drilling brains and pulling eyes  
It isn't real, the nation ain't in danger  
It's only splattermania

Lucio, you're back  
How we missed you when you were gone  
Oh now it's time to splat  
Like you did in the Full Beyond  
C-c-c-counting down the sickest ways  
To slice and dice your teenage prey  
In Tromaville the violence mounts  
To multiply the body count again

It's splattermania, it's extra censored thrills  
It's splattermania, it's zoom in on the kill  
It's splattermania, I know you think I'm ill  
But if you hold on tight and don't be shy  
We're drilling brains and pulling eyes  
It isn't real, the nation ain't in danger  
It's only splattermania

Splattermania  
Splattermania  
Splattermania  
Yeah, yeah

High rollin'  
'cos everyone's looking  
For someone to blame  
Censorship rules  
Still the problem remains  
Watch with your eyes closed  
And still you complain  
'til no one has an independent  
Thought in their brain  
And it's always the same

It's splattermania, it's extra censored thrills  
It's splattermania, it's zoom in on the kill  
It's splattermania, I know you think I'm ill  
But if you hold on tight and don't be shy  
We're drilling brains and pulling eyes

It isn't real, the nation ain't in danger  
It's only splattermania
