

## Zeen Requiem

The Wildhearts

When you talked about your suicide  
I never took it serious at all  
Out of sight but never out of mind  
I didn't see no writing on the wall

You were the man that I thought that I wanted to be

I miss having you around  
Now you're six feet underground  
When I was 17 you were all I wanted to be  
I won't be seeing you no more  
I never realised before  
That all the things you showed me were so important to me

I miss the twisted conversation  
And drinking 'til we couldn't drink no more  
I wish I had the inspiration  
That part of me left hanging in your hall

You were the man that I thought that I wanted to be

I miss having you around  
Now you're six feet underground  
When I was 17 you were all I wanted to be  
I won't be seeing you no more  
I never realised before  
That all the things you showed me were so important to me

I miss having you around  
Now you're six feet underground  
When I was 17 you were all I wanted to be  
I won't be seeing you no more  
I never realised before  
That all the things you showed me were so important to me
