

A Friend

The Winans

A friend, a friend, a friend, a friend
Friend of mine and yours
Out of all the love in the world
No one could love you more

Verse:

Sometimes, there's no one to talk to
No one else I can find

But He's always there
He's everywhere
I'm talkin' bout a friend of mine

Problems seem like they never end
You have no one to turn to

But you can lean on Him
He'll never let you fall and
All you got to do is call Him
He's just a friend

Chorus:

A friend, a friend, a friend, a friend
Friend of mine and yours
Out of all the love in the world
No one could love you more

Verse 2:

It seems so crazy
You see times have changed and
People say they treat you so good

But then they smile in your face and
They talk behind your back
They're not like the friends of old

But I found a friend who's love is true
It won't change no matter what happens
.....He's gonna be right there
And you can depend on Him

(chorus)

And if you ever need a friend
He's always by your side

And He'll never, ever let you down
He's a friend of mine, mine, mine, mine, mine, mine
Yes He is

(chorus out)
