

# Finders Keepers

The Winans

Soon as spring arrives  
With all of its splendor and surprise  
It finds its way within our lives  
But then there comes a change

The sun draws closer to our eyes  
We say "Hooray" and touch the skies  
Then spring turns to summers greens  
Then it all must leave

Fall comes to us in midsummer time  
It brings to us the autumn side  
And the lovely snow soon will cover  
The beauty of autumns cover, know that

Chorus:  
Finders keepers, losers weepers  
But I found someone who will never change  
Today, tomorrow, He's still the same  
And He won't ever go away

Verse 2:  
You find a love and marry her sweet  
You start to raise a family  
And many happy days and anniversaries  
But then there comes a change

A man embarks upon a career  
He works and works for many years  
Then he sits in silent tears  
Because its gone away

We live a life of uncertainty  
Just reaching for security  
But I found someone in whom I am sure  
His love will always endure, you know that

Chorus

Finders keepers, losers weepers  
I found the Lord and so I'll never weep  
The love He gives, I'll always keep  
For He won't ever go away

He won't ever go away x2

Finders will be keepers
