

Lost in the dark  
I feel like a shadow of myself  
I'm not what I was  
I keep looking for another second chance  
To get me... clean

Elevate me  
Take me higher  
I don't wanna be wasted  
I've got nothing left to loose  
It's a little known fact  
I see everything black  
And I don't wanna face it  
Elevate me  
Take me higher

The smoke and the dark  
Has just taken me in  
Over my head

No-one to trust  
I'm feeling like I'm closely there  
I was to the... end

Elevate me  
Take me higher  
I don't wanna be wasted  
I've got nothing left to loose  
It's a little known fact  
I see everything black  
And I don't wanna face it  
Elevate me  
Take me higher

I'm tired of taking the test  
Don't test me  
My troubled mind is a mess

You know I'm  
I'm only trying my best  
To be set free

Elevate me  
Take me higher  
I don't wanna be wasted  
I've got nothing left to loose  
It's a little known fact  
I see everything black  
And I don't wanna face it  
Elevate me  
Take me higher
