

Little Miss Pipedream

The Wombats

I think the postman intercepts
everything I'm trying send to you
'Cause he's infatuated
and he's the fulcrum between us too

She works in a dental practice
9 'till 5 how does she manage?
Considering her nights don't pass out 'till 3
So I guess that flossing is the last thing
in her health routine

And I don't mind that she gets hammered
and goes home with other guys
There's no jealousy
'cause she's my little pipedream fantasy

I saw her slam back tequila's
like Oliver Reed on an Irish stag do
And I'll wait if you stay
because foggy London town's
not built for me or you
Don't leave miss pipedream 'cause I love you!

And I don't mid that she get's hammered
and goes home with other guys
There's no jealousy
'cause she's my little pipedream fantasy
