

My Geraldine Lies Over The Delaware

The Wonder Years

I can't take a breath
because the air stinks
and I can't take a step
without listening
to your fucking accent
while you're saying
words with 'R's misplaced.

So fuck Route 9. I can pump my own gas, now you're crossing the
line.
Yeah fuck Route 9. And your water tastes like ass, just stay on
your side.

And we'll leave tonight and
if you're okay to drive and
we'll leave this place behind.
Thank God we don't live here all the time.

And we'll leave tonight and
if you're okay to drive and
we'll leave this place behind.
Thank God we don't live here all the time.

You don't pay to get in
But you pay to get out

So fuck Route 9. I can pump my own gas, now you're crossing the
line.
Yeah fuck Route 9. And your water tastes like ass, just stay on
your side.

Fuck Route 9!

And we'll leave tonight
No we'll leave tonight
So we'll leave tonight
Thank God we don't live here all the time.
