

The bowling alley burnt down  
They said it was a cigarette and I almost believed it  
There were burns in the carpet  
But everyone knows that it was for the insurance  
This is where you pick up the bus  
The most famous person to come out of here was  
The guy that played Leatherface in all those chainsaw massacres  
Every business on Main Street collapsed except Morgan's mom's place  
And the whole town feels dead  
The whole town feels dead  
And the whole town, the whole town feels dead  
I can't blame it
