

Chocolate On My Tongue

The Wood Brothers

Sittin' on the front porch
Ice cream in my hand
Meltin' in the sun
All that chocolate on my tongue

And that's good enough reason to live
Good enough reason to live

Sittin' in the bathtub
Hi-fi playin' low
Diggin' ol' Al Green
Well you must know what I mean

And that's good enough reason to live
Good enough reason to live

If I die young
At least I got some chocolate on my tongue

If I die young
'Least I got some chocolate on my tongue

Sittin' in the front seat
Good girl in my arms
Smilin' in my eyes
Gettin' me all hypnotized

And that's good enough reason to live
Good enough reason to live

If I die young
At least I got some chocolate on my tongue
If I die young
'Least I got some chocolate on, chocolate on my tongue
If I die young
At least I got some chocolate on my tongue
