

Don't Look Back

The Wood Brothers

I've been waiting
Much too long
For you
To break my heart... my dear
And I know that the end... is near
When I look into your eyes
I see that I'm not there anymore
And your staring... so far away

Don't look back... I won't... be there
All I can... do is follow... your stare
I've been searching much too long
Now there's no where to go
From me

And I can feel you, everywhere
When I put your hand in mine
I feel you slipping away... from me
And there's nothing, that can hold you now

Don't look back... I won't be there
All I can, do is follow... your stare
And I don't know where you're going
But I will see you when, the angels sing... to me

And I don't know where you're going
But I will see you when the angels sing... to me
