

One More Day

The Wood Brothers

Well I seen you in a sadness
I seen you when you'd hope to die
I heard you say, well it's raining all over the world
What did I tell you
What did I say
Just when your faith is gone
Give it one more day

I seen you when your head is long
Face down on the ground
I heard you say, well you're lost and you couldn't be found
What did I tell you
What did I say
Just when your faith is gone
Give it one more day

And next thang you're smiling back at the sun
Blowing right back at the wind
Rolling right back at the ocean
But nothing's gonna do you in

Give it one more day
One more day
Just when your faith is gone
Give it one more day

I seen when your soul shines
I seen you when you heart sings
I heard you say well the world don't owe you a thing
Hay and what did you tell me
What did you say
Just when your faith is gone
Give it one more day
Just when your faith is gone
Give it one more day
