

Rainbow

The Wood Brothers

You've come from nowhere, You've shown me everything I'd never
seen

You shine a light into the dark of the things that I believe
You wake me up, give me hope, give me peace so I can sleep
You see rainbows when I see rain; Isn't that strange

Don't make me wait for the rain
Don't make me wait for the rain

You've called an end to all the lies, the secrets, and the sham
e
You say it's only up to me to make a change and take the blame
I wanna know how did you learn the rules and rise above the gam
e
You see rainbows when I see rain; Isn't that strange

Don't make me wait for the rain
Don't make me wait for the rain

Don't make me wait for the next rainy day
When you come wash my trouble all away
I don't mind the pain; But I hate waiting

You wake me up give me hope, give me peace so I can sleep
You see rainbows when I see rain
You see rainbows when I see rain; Isn't that strange

Don't make me wait for the rain
Don't make me wait for the rain
Don't make me wait for the rain
