

Smoke Ring Halo

The Wood Brothers

Bet your heart was an ice cube last night
Just chillin' your whiskey blood
Puttin' your mind way outta sight, And that's okay
Cuz you got a smoke ring halo that just won't blow away

And I heard today that you have to go
And I guess we all get carried away
You're just the same with a cigarette jones, and that's okay
Cuz you got a smoke ring halo that just won't blow away

And you deserve better, and that's all I know
And I just hope they get it right in that place that you're going
You used to be covered in a circle of gold
Won't you let some angel blow away your smoke ring halo

We are gonna miss you blowing your horn
And showing us your busted heart
You'd blow so hard your lips are torn, and that's a way
Cuz you got a smoke ring halo that just won't blow away

And we all got things that we can't help
But you always had to take a bullet for a stranger
I heard today you took one for yourself, and that's okay
Cuz you got a smoke ring halo
You got a smoke ring halo, You got a smoke ring halo
Yeah - you got a smoke ring halo, That just won't blow away.
