

# Time to Stand Still

The Wood Brothers

One mockingbird  
Fills up the sky  
Had to remind me  
How time used to fly

This night is so long  
I used to care  
You shoulda heard me  
Sayin' my prayers

We always wanted  
Time to stand still  
Now that you're gone  
I'm sure that it will

This big moon above me  
Sure as the sun  
I never thought  
That you'd have to run

Lonesome I did not  
Think I could be  
But always knew that he was  
No friend to me

We always wanted  
Time to stand still  
Now that you're gone  
I'm sure that it will

Lonesome I did not  
Think I could be  
But always knew that he was  
No friend to me

'Cause we always wanted  
Time to stand still  
Now that you're gone  
I'm sure that it will  
Now that you're gone  
I'm sure that it will
