

How much further must I go before  
I can't escape my past?  
Oh  
I wish I could have lived, without regrets  
But I made, my mistakes so many times

Where do you go when the darkness finds you?  
All I want is to see better days  
And have my past washed away  
All I want is better days

But where do I go? But where do I go?  
I need a place to call my own  
Where we can we find hope? Where can we find hope?  
I need you to show me the road

Life shouldn't be this hard, not a reminder of  
Of how much you've failed  
Remind yourself you've come this far, you've come so far  
Remind yourself you've come this far, you've come so far

But where do I go? But where do I go?  
I need a place to call my own  
Where can we find hope? Where can we find hope?  
I need you to show me the road

But where do I go? But where do I go?  
I need a place to call my own  
Where can we find hope? Where can we find hope?  
I need you to show me the road

Why wasted this for me?  
Show me where to go  
Show me anything, give me everything  
Show me where to go  
Show me anything, give me everything

I keep waiting more and more  
But I can't see, Can't start alone

But where do I go? But where do I go?

But where do I go? But where do I go?  
I need a place to call my own  
Where can we find hope? Where can we find hope?  
I need you to show me the road

But where do I go? But where do I go?  
I need a place to call my own  
Where can we find hope? Where can we find hope?  
I need you to show me the road  
Wanted you to show me the road
