

Belong

The Word Alive

I just want to belong
I just want to belong
I just want to belong!

I've been searching for far too long
When I feel I've reached my destination
I can't control these feelings
I just wanna stop reaching

Illuminate the path before me
So I can finally find my way
I've been dying to stop wandering
I just want to know my place

Don't we all just want to belong?
I don't know if I'm strong enough
We'll find a better way
I just want to belong
Don't we all just want to belong?
I don't know if I'm strong enough

Everyday I begin to hate this more
Clinging on to a world so worn
I know this feeling is feeling to familiar
Cary on

Do you know when you've seen it all
The world around you doesn't make sense at all?
You got lost in your progress

Illuminate the path before me
So I can finally find my way
I've been dying to stop wandering
I just want to know my place

Don't we all just want to belong?
I don't know if I'm strong enough
We'll find a better way
I just want to belong
Don't we all just want to belong?
I don't know if I'm strong enough

Here we go here we go, let's take this life
And lets start living
Here we go here we go, let's take this life
And lets start living
Here we go
Let's take this life, let's start living
start living
Let's take this life, let's start living
start living

Don't we all just want to belong?
I don't know if I'm strong enough
We'll find a better way
I just want to belong
Don't we all just want to belong?

I don't know if I'm strong enough
We'll find a better way
I just want to belong
I've searched for far too long
I can't control these feelings
I found my destination
I need to stop reaching
Don't we all just want to belong?
I don't know if I'm strong enough
