

Hidden Lakes

The Word Alive

You may not make it home tonight
You may not last another fight
You may not make it home tonight
When you meet your end, walk towards the light
Walk towards the light

Together, together we'll always be
In life and death I will always have peace
I believe you're here with me
You're here with me
Knowing you found the way before the end
Has allowed me to live

Sometimes, you'll think of me and say "I miss you,
The stories you'd tell me"
You'll wish we had more time, you got to say goodbye
Don't forget don't forget what I told you
You gotta live gotta live like I showed you
I'm proud of who you are
And it's not too late
It's not too late

Sometimes I wonder if you're looking down
Have I strayed too far because I'm longing
To find the truth I've always known, show the way,
The way to you
I have so much I need to say
What would you say?
Knowing you found the way before the end
Has enabled me to live

Sometimes, you'll think of me and say "I miss you, the stories you'd tell me
"
You'll wish we had more time, you got to say goodbye
Don't forget don't forget what I told you
You gotta live gotta live like I showed you
I'm proud of who you are
And it's not too late
It's not too late

If you're still there, pick me up, empower me
To stand alone, I'm coming home
I wonder if you'll be there

I miss you
I wonder if you're listening, watching?
Your memory will will never fade
You'll live in me
You'll live through me
You'll live through me

Sometimes, you'll think of me and say "I miss you, the stories you'd tell me
"
You'll wish we had more time, you got to say goodbye
Don't forget Don't forget what I told you
You gotta live gotta live like I showed you
I'm proud of who you are

And it's not too late
It's not too late
It's not too late
It's not too late
