

Listen Read Decide

The Working Title

I hope everything works out but i cant argue now
we have opened up large doors to even larger
unimpaired despise and all that has taken
so many lives we can not pass the blame

Maybe we should get out maybe theres other
things we could do here maybe we never should have
gone maybe we did the right thing
maybe we should help each other

Come on you have to wake up, listen, read, decide.....make up y
our own mind
maybe everything takes time maybe we'll just
run ourselves into the ground like we're prone to do
are we thinking too much or not enough?

All i know is there
is no greater responsibility
than comes with great strength
