

## Heart Skipped a Beat

The xx

Please don't say we're done  
When I'm not finished  
I could give so much more  
Make you feel, like never before  
Welcome, they said welcome to the floor

It's been a while  
And you've found someone better  
But I've been waiting too long  
to give this up  
The more I see, I understand  
But sometimes, I still need you

Sometimes, I still need you  
Sometimes, I still need you

I was struggling to get in  
Left waiting outside your door  
I was sure  
You'd give me more

No need to come to me  
When I can make it all the way to you  
You made it clear,  
You weren't near  
Near enough for me

Heart skipped a beat  
And when I caught it you we're out of reach  
But I'm sure, I'm sure  
You've heard it before

Heart skipped a beat  
And when I caught it you we're out of reach  
But I'm sure, I'm sure  
You've heard it before
