### The Years Gone By

I miss you more with every mile that we drive  
and when i wake the suns not as bright as your eyes  
i miss you more with every state that we cross  
say you'll stay and waste another day

the pictures that we paint are better than what i saw today  
i miss you, from one thousand miles away

and i got this figured out right  
and i will fly home tonight oh  
the east coast weather is so much better when its with you

cause theres so much left to drive  
and i haven't slept in nights oh  
i set my car on cruise control  
this is where i begin to let go

i keep your photograph taped to my rear view  
so when i look behind me all i see is you  
i miss you more, but i no you got my back  
say you'll stay, and waste another day here in new jersey

the long drives that we make  
we're crossing over states its over rated  
but i'm one thousand miles away

and i got this figured out right  
and i will fly home tonight oh  
the east coast weather is so much better when its with you

cause theres so much left to drive  
and i haven't slept in nights  
i set my car on cruise control  
this is where i begin to let go

i miss with every mile that we drive.
