

# Christmas Eve

## The Years Gone By

What more can I say  
December felt so cold  
This lonely fire place has left me freezing and alone  
And the snow I know is melting  
I still can feel your pulse  
I miss the times I'd hold you  
Outside wishing for snow

I'd give it all up for you  
You're all I'm asking for this year  
(Asking for this year)

Call me on Christmas Eve to see how, how I'm doing  
When I'm underneath the tree  
Burn it, burn it down  
Cause I can't stand the sight of a Christmas when you're not around

Let's talk  
I miss what you would say  
I put you on my Christmas list  
Please promise me you'll stay  
The lights still line my house  
That always was your thing  
We can drive around for hours  
You can listen to me sing

In our cold car  
No need for heat  
Cause you got me

Call me on Christmas Eve to see how  
How I'm doing, when I'm underneath the tree  
Burn it, burn it down  
Cause I can't stand the sight of a Christmas when you're not around

Call me on Christmas Eve to see how, how I'm doing,  
When I'm underneath the tree  
Burn it, burn it down  
Cause I can't stand the sight of a Christmas when you're not around  
(Not around, not around)

Call me on Christmas Eve to see how, how I'm doing,  
When I'm underneath the tree  
Burn it, burn it down  
Cause I can't stand the sight of a Christmas when you're not around
