

## The Safest Place

### The Years Gone By

Tonight can be the safest place to fall in love again  
Tell me that I can make the same mistakes  
in this Garden State you know I'll mess it up again  
I can write a thousand times, "I swear to God, you'll be all right"  
if Tonight's the night I'll fall in love again.

If I could say the words  
and then I'd hope to mean it.  
I know the way it works  
I just won't believe it

I can't find a reason to believe in you  
Know that if you wake up, you missed out, it's over, I found out.  
So get lost, it's no surprise, I need you bad.

Tonight can be the safest place to fall in love again  
Tell me that I can make the same mistakes  
in this Garden State you know I'll mess it up again  
I can write a thousand times, "I swear to God, you'll be all right"  
if Tonight's the night I'll fall in love again.

Oh the way hurts  
I'd rather bleed out of these speakers  
then put these lungs to work  
I won't slow down, I'll keep on breathing

I can't be the one that saves you.  
You can't find a reason why  
This heart's a sinking ship  
and we're all... (1, 2, 3 GO!)

Tonight can be the safest place to fall in love again  
Tell me that I can make the same mistakes  
in this Garden State you know I'll mess it up again  
I can write a thousand times, "I swear to God, you'll be all right"  
if Tonight's the night I'll fall in love again.

and If I stop breathing and my heart's on the ground  
would you keep on breathing now?
