

# Everyone but You

The Young Veins

A part of you left the room  
I am left talkin' to the apple  
She comes to me when I dream  
I'm tired of counting sheep to see her  
I sleep because I need her  
And everybody knows it but you

A wedding ring is just a thing  
That weighs you down and occupies your finger  
I know it sounds a little down  
But love is all I'm really after

She comes to me when I dream  
I'm tired of counting sheep to see her  
I sleep because I need her  
And everybody knows it but you, but you  
Everybody knows it but you

I hope you're all listening  
I'm pouring out my heart for paper  
A part of me still believes  
That love is all I'm really after

She comes to me when I dream  
I'm tired of counting sheep to see her  
I sleep because I need her  
And everybody knows it but you, but you  
Everybody knows it but you

Everyone but you knows  
Everyone but you  
Everyone but you knows  
Everyone but you
