

# Alone in Paradise

The Zombies

You're so far away  
We're strangers today  
The heaven and you  
Inside of the blue  
Echoes on and on  
And every heartbeat's still for you  
A light that shines to see me through

When heaven's so far from home  
You're alone in paradise  
A cold wind the changes blow  
Your touches turn to ice

We're oceans apart  
Make love in the dark  
I reach out to touch  
So little means so much  
And every dream's forever true  
And paradise is heaven with you

When heaven's so far from home  
You're alone in paradise  
A cold wind the changes blow  
Your touches turn to ice

alone in paradise  
alone in paradise  
alone in paradise

When heaven's so far from home  
You're alone in paradise  
A cold wind the changes blow  
Your touches turn to ice
