

As Far As I Can See

The Zombies

There's a slow train coming
From the distance coming
As far as I can see

From a blue horizon
That I keep my eyes on
And I search constantly

Let it come

There's a safe house waiting
That I know is waiting
Some way down the line

And I can't quite see there
Though some day I'll be there
And I look for the sign

Let it shine

Only as far as I can see
