

# Breathe Out, Breathe In

The Zombies

The city's sitting pretty  
A warm summer wind  
Seems to promise something special tonight  
There's a look in your eye  
And I want to be part of you  
Make it all right  
Later tonight  
We can go to the river  
Watch the sun go down  
Catch a little music in flight  
Let our hearts swell with pride  
And the feelings inside of us  
Make it all right  
Later tonight

Breathe out, breathe in  
Tonight we win  
Say goodbye to tomorrow  
And here let the story begin

Won't you look at the evening  
Spread out to the sky  
It really is a wonderful sight  
As the stars in their millions  
Emerge from vermilion  
Deepening light  
I'll love you tonight  
We can roll with the music  
Get lost in the sound  
Stay until the break of daylight  
In this life we are living  
We dance to the rhythm  
And make it all right  
However we might

Breathe out, breathe in  
Tonight we win  
Catch the stars as they're falling  
And here let the story begin

Breathe out, breathe in  
Tonight we win  
Catch the stars as they're falling  
Treasure the light  
Let it shine on our freedom  
This wonderful sight  
We can live with the rhythm  
As long as we learn to  
Breathe out, breathe In  
Breathe out, breathe in
