In My Mind a Miracle

The Zombies

In my mind a miracle
You turned me round and made the colours true
In you I found my Odyssey and Oracle
No longer blind, I see because of you

When I was young, I didn't notice much
I concentrated on myself
But later, I stumbled
I tripped, I tumbled
Suffered such a fall from grace
Hardly knew my place
Until I found you

In my mind a miracle
You turned me round and made the colours true
In you I found my Odyssey and Oracle
No longer blind, I still depend on you

Every day I see it in a better way
Every night I feel it coming through – and I do
I'm back now – I'm running
The things that I've done in
Retrospect have caused me pain
But here I go again
I tell you right now

In my mind a miracle
You turned me round and made the colours true
In you I've found my Odyssey and Oracle
No longer blind, I see because of you
