

# Love Conquers All

## The Zombies

Find yourself inside a world of strangers  
knowing time is slowly passing by  
always just be on the edge of danger  
feeling every moment's do or die  
take a look around  
before you see the last chance fade away  
don't fool yourself and say you can't let go  
there's a whole new world that's waiting  
now's the chance you're praying for  
if you're gonna take it  
know you're gonna make it

Love conquers all  
don't hide your heart away  
each time you fall

Every day can have it's share of sorrow  
there's a silver line just beyond  
waiting for the light to bring tomorrow  
know that better times are further on  
if you wanna try  
you know we're gonna dance those blues away  
just you and I we could light up the night  
don't let this sadness  
keep you waiting for another chance  
there's no need to fake it  
you know we're gonna make it

Love conquers all  
don't hide your heart away  
each time you fall

Breakin down the wall  
you build around yourself  
love conquers all

if you wanna try  
you know we're gonna dance those blues away  
just you and I we could light up the night  
don't let this sadness  
keep you waiting for another chance  
there's no need to fake it  
you know we're gonna make it

Love conquers all  
don't hide your heart away  
each time you fall

Breakin down the wall  
you build around yourself  
love conquers all
