

Play It for Real

The Zombies

You can't see
What's plain to tell
Get so frustrated
'Cause you know too well
You keep on knocking
But you don't have much to say

All night long
You toss and turn
You're going crazy
There's so much to learn
You want to fake it
But you don't know how to play

Feel it for the first time
Hold it in your eyes
How you gonna ever
Live in this disguise

When you feel how you feel
There's no deal to reveal
Just play it for real

A shooting star
A midnight sky
You always knew that you
Were born to fly
But something happened
And you fell along the way

There's a chance
To start anew
To reconsider
To change the view
The world is waiting and
There's sunshine all the way

Feel it for the first time
Now you fantasise
See the inner vision
Living in your eyes

When you feel how you feel
There's no deal to reveal
Just play it for real
