

April Fool

The Zutons

It was a wonderful night
And the stars shone bright in the evening
And the silence scouted
You could hear the cats and dogs are breathing

I was out to see a friend for a few
It didn't occur to me
The unknown frightening truth

All the lights are off from the houses
Nobody at home tonight
Everybody's gone out dancing
Some will get an early night

I check my phone for changes
And make sure I'm not late
I'm still on time
Down town for a date
