

And We'll Dance

Thea Gilmore

Meet me by the tail lights
Meet me here by moonlight
Meet me by the river bed
And we'll dance

Meet me where the sky bleeds
Meet me by the needle priest
Meet me by the window
And we'll dance
And we'll dance

We will dance to the music of this motorway
We will dance to the drums of the street cabaret
I don't care if all of our steps come out wrong
'Cause you see we've been here all along

Meet me where the silk tears
Meet me in your double dares
Meet me as the bell tolls
And we'll dance

Meet me by the ruined tower
Meet me in your final hour
Meet me as the sun goes down
And we'll dance
And we'll dance

We will dance to the music of this motorway
We will dance to the drums of the street cabaret
I don't care if all of our steps come out wrong
'Cause you see we've been here all along
We will dance
We will dance
We will dance
