

Interlude with Ludes

Them Crooked Vultures

I've always been behind you
So I think we should meet
I've sharpened my knives
So I'm gonna use them
Oh...Baby
Oh...Lalalala
I'm gonna smother you with my love
Forever and ever, also forever
Acid and poison and chemicals baby
Is what I mean to provide
I know together, we'll make the possible
Totally impossible
Lalalalalala-luh
If you want me I'm yours
And even if you don't want me
I'm trained and licensed and armed to the teeth
I think you'll agree
It's so hard to apologize
So I'm just gonna skip it
Sleep deprivation will make you a million
Did you just hear something crazy?
I got my fingers crossed you'll catch something baby
Cause I just threw myself at you
Everyone run and hide
I'm coming to find you
Is my face still bleeding?
Then what is your problem?
By the skin of my teeth
That's how I'm going to drive you
Muh-muh-muh-muh-muh
On the goodship lolly-gag
LSD and a bloody pile of rags (Hey)
I hate to be the bearer of bad news
But I am...
