

# Century Girl

Theophilus London

Baby, you're the one for me  
Beautiful, in magazines  
Something that I've never seen  
Let me in your dreams  
Baby, you're the one for me  
Beautiful, in magazines  
Something that I've never seen in this century

Uh, take off like a rollercoaster  
Lights off, layin' on the sofa  
Time passes, I move it closer  
Take it down for the night, it's over  
Wake up, can you paint my canvas?  
Hot chick, so your name is Candice  
So fly, you'd think I'm plantin' this  
Senorita, that's Spanish  
From my knees I can't manage  
My past life, it's damaged  
Had to break her in Paris  
And now I'm just stuck on the image of you  
We ain't got to front, it's the little things too  
And when I'm far away, I'm missin' my boo  
Have a drink on me, and here's to the century

I don't wanna waste my time  
I just wanna make you mine  
Give you all my good, good time  
And let me you see you melt your mind  
Baby, you're the one for me  
Beautiful, in magazines  
Something that I've never seen  
Let me in your dreams  
Baby, you're the one for me

Let's go  
Cheap pass, first class, slow it down, just a lil' bit  
She copped the?, take a snapshot, killin' it  
Take you around the world  
Backdrop, feelin' it  
Seashore, fishermen  
It'd be more intimate  
Search Earth for a hundred years, still can't find a? close to?  
Look like? be a stormy eye  
Let's camp out til' the coast is clear  
Seagulls approachin' us, predicting the isle is close to us  
Til' then, have a drink on me  
And here's to the century

I don't wanna waste my time  
I just wanna meld your mind  
Give you all my good, good time

And let me you see you melt your mind  
Baby, you're the one for me  
Beautiful, in magazines  
Something that I've never seen  
Let me in your dreams
