

Figure It Out

Theophilus London

I've been running away from you for hours
I've been running away from myself
Can you believe in us? Worth fighting?
By ourselves, wanting to be more
(You can skip to the end)
(And then have time for yourself)
(If that is fine for you)
(Can't answer to yourself)
(I just can't be like, somebody you know)
With me is the only time she could be worth it
I don't know how I can get it, figure it out!

Tell me something that you think it's worth it
(Worth for me) So we can figure it out
So we can figure it out
So we can figure it out

The more you treat me, I adore you
That's why I remind when these things for you
When I wedged the doors, I caught you on a Wednesday
Mr. Tl on the phone, f**k what your friends say
It's too dumb, it's trending, tell me, if you hear me
Lord, f**k the faith, give up any boredom
I f****d up, it's hard
