Need Somebody

Theophilus London

Feel the force, feel the groove

Closer, wiser, let it go Drop the anchor, tie the rope Receive so many faces, receive so many graces Hit you 3 times in a row Strike em out like a pro This town will bring me action This town will bring the Mecca These girls are social promise They'll come and blow ya back out Leave yo bags by the door Make sweet lovin' on the floor Hit the tune, I hit default If you don't, ?

Oh, girl, you're gonna need somebody Who can show you the ways to go Show you all of my lovin', my devotion Just gimme a hand to hold

I really need to change up (oh my God, what am I gonna wear?) I can't make my mind up All I see is dolla signs, they do you like a trophee The buzz is runnin' out, they want to ball like Coby Every day it comes and goes Got the? Typical Got the conference, got the heart Had the brains from the start

Oh, girl, you're gonna need somebody Who can show you the ways to go Show you all of my lovin', my devotion Just gimme a hand to hold

Oh, hold my hand, oh, hold my hand Oh, hold my hand, oh, hold my hand

Oh, girl, you're gonna need somebody Who can show you the ways to go Show you all of my lovin', my devotion Just gimme a hand to hold
