

# Easy to Love You

Theory Of A Deadman

I remember all the summer days  
Drinking wine in the sunshine  
I hope it never leaves  
And I remember all the summer nights  
Staring at you in the moonlight  
I hope you never leave  
Cause baby you're so good to me  
You have all that I ever need.

It's easy to love you  
So easy to love you  
You know it's true  
The best part of being with you,  
To know you're with me  
It's not so hard to say  
It's easy to love you

I remember all those winter days  
Frozen in the cold tryin' to get you home  
Should I be moving in?  
We can be together then  
Remember spending all those winter nights  
Stayin' inside by the warm fire  
Ya you gotta know, I can never let you go  
You and I have the rest of our lives to see

It's easy to love you  
So easy to love you  
You know it's true  
The best part of being with you,  
To know you're with me  
It's not so hard to say  
It's easy to love you

Can anybody else see it?  
Oh, can anybody else see what I do?  
Can anybody else feel it?  
Oh, can anybody else feel the way I do?  
Now I'm with you

Hard to forget all the moments when  
We'd be sitting there hoping it would never end  
Cause this is meant to be  
So baby, will you marry me?

It's easy to love you  
So easy to love you  
You know it's true  
The best part of being with you,  
To know you are with me  
It's not so hard to say  
It's easy to love you

You and me will be together  
I know our love will last forever  
You and me will be together  
I know our love will last forever

You know it's true  
The best part of being with you  
You're easy to love
