

Livin' My Life Like a Country Song

Theory Of A Deadman

You took it all and you moved away
Now I'm livin' in a trailer , in a state
Maybe the dream can't make it worse
It got me through the night
But the morning hurts

My God, what have I done?
I could have end it all
But I made you run

Oh, where did I do it wrong?
I'm livin' my life like a country song
Oh, will I get it back?
I'm livin' like a man on a dancing track

It's bad, it's sad
I ended up losing everything I had
My love left town and my whole world's gone
I'm livin' my life like a country song

Baby I stumble, when I walk through life
But no one's gonna catch me on the other side
I got no friends and no places
These country boys got to make some changes

My God, I'm so choked
I'm begging on a door but the bar is closed

Oh, where did I do it wrong?
I'm livin' my life like a country song
Oh, did I screw up?
Staying last night in truck?

It's bad, it's sad
I ended up losing everything I had
My love left town and my whole world's gone
I'm livin' my life like a country song

This is what I am and it's okay
You're riding with me with a love to pay

Oh, where did I do it wrong?
I'm livin' my life like a country song
Oh, will I get it back?
I'm livin' like a man on a dancing track

It's bad, it's sad
I ended up losing everything I had
I messed around and now you're gone
I'm livin' my life like a country song

Oh, where did I do it wrong?
I'm livin' my life like a country song
Oh, where did I do it wrong?
I'm livin' my life like a country song

It's bad, it's sad
I ended up losing everything I had
My love left town and my whole world's gone
I'm livin' my life like a country song
